THE REALITY

What Case Managers Deal With Every Day

Slow scheduling and facilities that never call back

Surgical notes that take weeks — and still lack causation language

Providers who don't understand liens or fight the process

Facilities that create work instead of solving it

"We handle the lien. We document. We pick up the phone. **Your client and the record supports the case**

— CULVER CITY SURGICAL, PI COM

NON-NEGOTIABLE

Liens & LOPs Accepted

We work in California's lien-based economy. No advance costs, ever. Clear written lien process before the first case.

Dedicated PI Liaison

Chronos — named contact, direct cell, same-day response guarantee. Not a scheduling line. A person who picks up.
